

Eclipses & the Astrology of Transformation

Eclipses, which are powerful New Moons (solar eclipse) and powerful Full Moons (lunar eclipse), are among the oldest forecasting tools used by astrologers. They eventuate, when there is an alignment between Sun, Moon and Earth, happening twice a year.

- ❖ We will explore the upcoming **August eclipses** and the potential they contain for you.
- ❖ We will be discussing the Saros cycle and periodicity of Solar eclipses as markers of change and transformation.
- ❖ We will discuss the significance of the current eclipses falling in the signs of **Leo and Aquarius**, as the affairs ruled by this house are in a transformational process
