

Planetary Cycles and Transits: Staying Attuned to an Ever- changing Reality

A transit offers an opportunity to work with a particular energy in a specific area of life for a period of time. The more we actively bring a planet's energy into our life during a transit, the more useful and rewarding the transit will be.

Likewise, by resisting the challenging energies of Mars, Saturn, Uranus, Neptune and Pluto we make these more difficult.

During this 1-day workshop we will explore the transits and cycles of the outer planets, including Chiron and Lilith, and how to handle them in a meaningful way.

February 24, 10 am – 4 pm, Lillifield Community Centre,
4505 Kyogle Rd; \$ 70, conc \$60
